EXPERIENCE

Node.js Developer Unisens

09/2021 - 08/2022

Georgia/Kutaisi

Achievements/Tasks

- Develop and maintain scalable, high-performance applications using Node.js and related technologies.
- Collaborate with cross-functional teams to design and implement new features and enhancements.
- Using microservice architecture.

Contact : Giorgi Janashia - +995-568-623-620

Node.js / .NET Developer UGT

07/2022 - Present

remote

Achievements/Tasks

- Implementing of security and data protection.
- Design and implementation of data storage solutions.
- Implementing Web Sockets for real-time applications.
- Worked closely with clients to establish problem specifications and system designs.

NodeJS Developer Leverx

08/2024 - 06/2025

remote

Achievements/Tasks

- Develop, maintain, and optimize backend services using Node.js, Nest.js, Express and TypeScript.
- Implement APIs (REST and OData) and integrate them with SAP CAP and external systems
- Ensure code quality with unit/integration testing (Cypress, Jest) and follow Agile/Scrum practices.
- Implement authentication/authorization mechanisms with XSUAA and OAuth 2.0.
- Work with databases (PostgreSQL, MongoDB, Redis) to design efficient data models and queries.

PROJECTS

Boathouse terminal (07/2022 - Present)

- Node.js
- GCP, Cloud Functions, Cloud Run
- MongoDB
- e2e, Unit, Integration tests

SAP End User Portal (09/2024 - 02/2025)

- Next.js
- PostgreSQL, Redis
- Docker
- SAP Cloud Foundry
- e2e, Unit, Integration, Cypress testing

Bank Archive System (09/2023 - Present)

- C# .NET 8.0
- PostgreSQL
- EF Core, LINQ
- Dapper
- Unit tests, e2e

SAP Anthropos - Landscape User Management (LUM) (01/2025 - 05/2025)

- Node.js, Nest.js
- Next.js
- PostgreSQL, MongoDB
- Cypress, e2e, Unit Component testing
